The object of the institution is to reform boys and girls committed by the Police Justices for truancy and such conduct as indicates they are beyond the control of parents. It is a public institution, supported by the city. It takes children viciously inclined, and through industrial and school culture, prepares them for lives of usefulness. The Home is in no sense like a prison but the intent is to make it what its name implies—a "home school" for delinquent children.

## WE WANT TO TALK TO YOU

---

---

**W**E want to talk earnestly, and with an effort to secure your patronage. We want to show you how we make printing produce profit for our patrons. We believe in ourselves. We believe we possess more knowledge regarding printing than go out of every 100 of those engaged in the printing industry. Yes, we believe in ourselves. We have been forced into this belief by the admiration our productions receive from those who buy printing, and the rapidity with which our designs are copied. Through the knowledge we possess regarding the art of printing we are enabled to produce your work in a more skillful manner and with less expense than the average printer. We want to talk to you whenever you are ready. . .
